

Choose which layout you prefer.

Prepare your page

Fold in half carefully
lengthwise, then half again.
Unfold. Repeat widthwise.

Fold roughly in half
lengthwise, then fold each
half roughly again. Unfold.
Repeat widthwise.

How to frottage

- Secure your paper by holding tightly, taping in place, or asking an adult to help you.
- Grip your pencil as shown with 4 fingers on top. This allows you to use the side of the lead.
- Rub over the surface to pick up the texture (try to stay within your folded lines)

Tips

Use the side of your lead

The more contact there is between the page and the pencil, the better!

Hold your paper securely

You might need to ask an adult to help you.

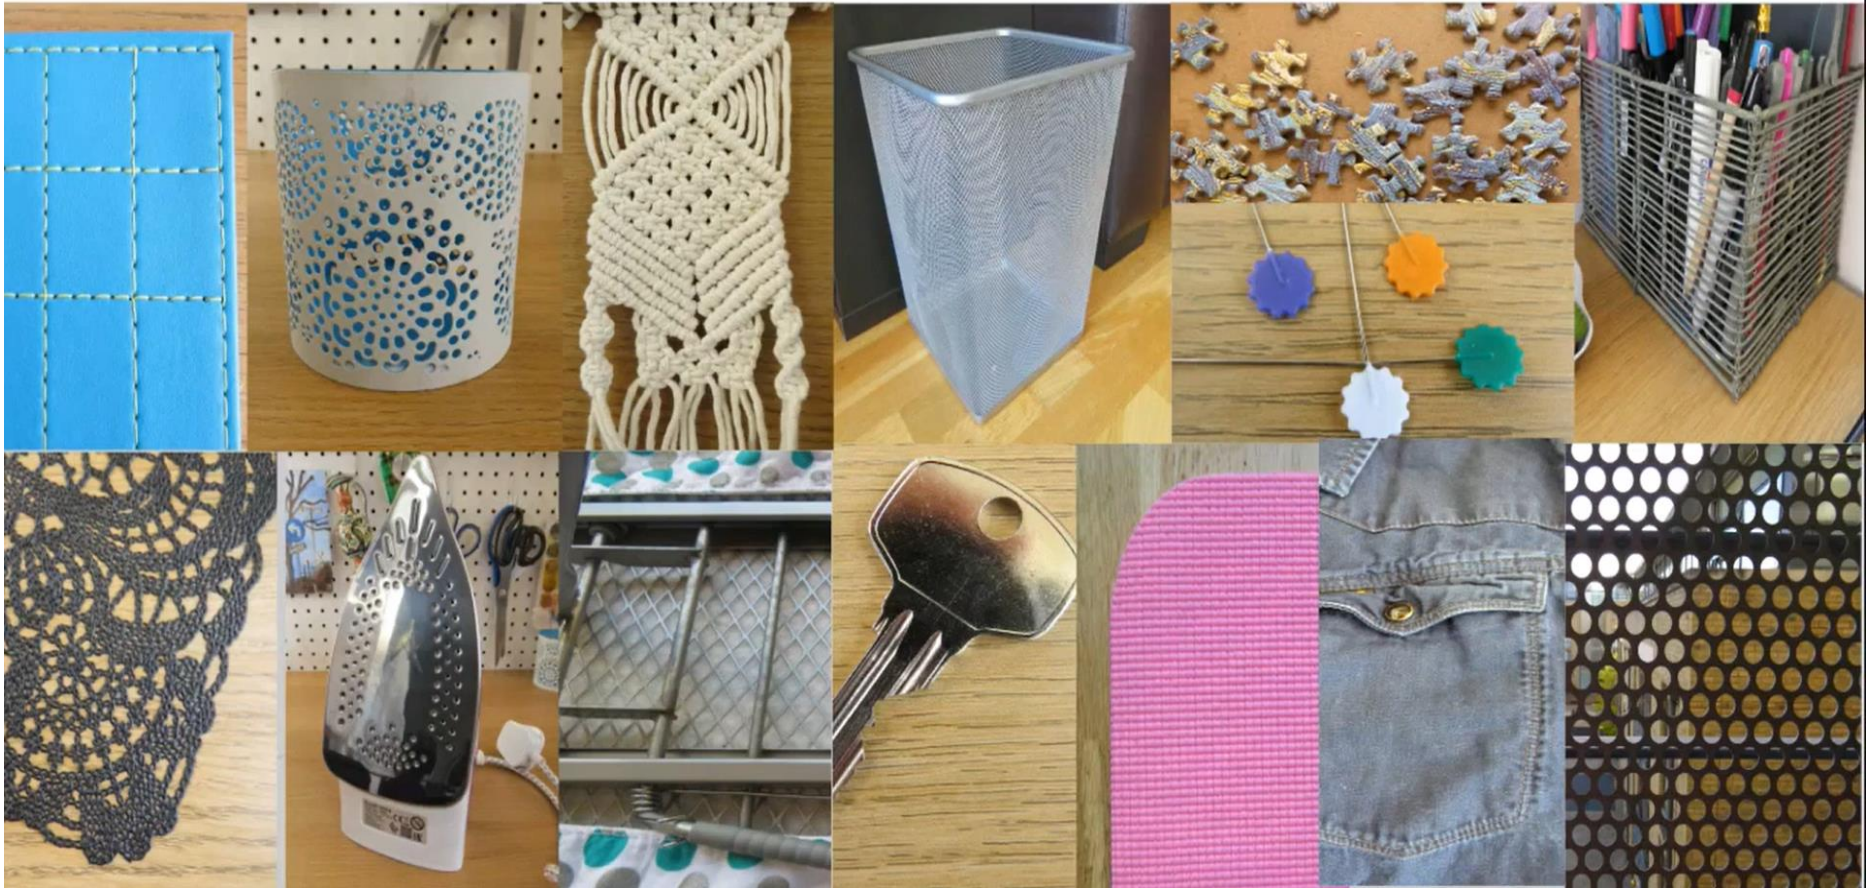

Keep your pencil sharp

A blunt pencil takes longer and is more likely to make holes in the work.

Hard, flat objects are easier!

Do try some softer objects to see what effects you can get.

Here are some examples of items which might inspire you when hunting for your own textures to frottage. .

Examples

Add lines and patchwork stitches if you like.
