

Your Digital Footprint

A digital footprint is a trail of 'footprints' that you leave behind you every time you go online.

Most of the websites you visit will record your visit by taking a note of your IP (Internet Protocol) address. This is a set of numbers which is unique to your computer.

Think about the ways you use the Internet. Do you visit websites? Do you message friends? Do you download music or post photographs?

Complete your digital footprint by adding all the ways you use the Internet, including what websites you visit regularly. Compare your digital footprint with your friends and family.
