GEOGRAPHY
Year 3

Focus Question: What are the geographical features of the UK?

Key Vocabulary

County	a named area within a country
Capital city	a city where a country's government is based
Coast	the edge of land beside the sea
River	moving water flowing in a channel
Relief	the height and shape of the land
Compass point	a direction used to navigate
Atlas	a collection of maps

Key Learning

- The UK has four countries and four capital cities.
- Eight compass directions describe positions.
- Counties are named areas within a country.
- UK rivers include the Thames, Severn and Trent.
- The UK has mountains, seas, coasts and other landforms.

Geography in Action

UK countries

Four countries, four capital cities.

Our landscapes

Coasts, rivers and mountain areas.

Atlas skills

Counties and eight compass directions.

Remember and Try

- Use an atlas to locate counties and cities.
- Label mountains, rivers and coasts.
- Describe places using eight compass points.

End Point

I can locate UK countries, capitals and landscapes using an atlas and accurate compass directions.
