

Internet Hack

Dear Agent,

There has been a breach in Internet security, and we need you to help protect the data before it is stolen!

The IP numbers attached to this document have fallen into the hands of despicable criminals. Soon, they will have worked out the patterns to unlock the codes and steal important and secretive information.

Can you help us find the codes to lock the files before they access them?

To find the code to lock the files, you must round the IP number to the nearest 10, 100 and 1000.

Good Luck Agent!

Round each IP number to the nearest 10, 100 and 1000 to find the code.

<p>For example: Mr Amadi Owoh IP Number: 4239 Code: 4240, 4200, 4000</p>	<p>Mr Nigel Mikkelsson IP Number: 6902 Code: _____ _____</p>	<p>Mrs Rita Clarence IP Number: 7264 Code: _____ _____</p>	<p>Mr Thomas Matthews IP Number: 7619 Code: _____ _____</p>
<p>Mrs Sarah White IP Number: 9493 Code: _____ _____</p>	<p>Mr Antony Truddard IP Number: 4827 Code: _____ _____</p>	<p>Mr Arif Dawar IP Number: 3724 Code: _____ _____</p>	<p>Mr Ji Cheng IP Number: 8705 Code: _____ _____</p>
