

Day 2

Year 4 tasks

English

Write a diary about what you've been doing while school is closed.

- * Write in the past tense.
- * Use time words.
- * Describe your thoughts and feelings.
- * You could add pictures.
- * Challenge yourself to add to it every day.

When you are older you will probably remember this time in

2020

and be able to read your diary to your children!

Maths

Column subtraction

Use the calculations to help you practise your column subtraction skills. If you want something extra, try the challenge task.

Personal, Social, Health Education

Activity:

Think of some ways that you could help people in your home or in the community during this time away from school, that would not put yourself or others at risk.

Here are some examples:

Could you make a meal for somebody you live with?

Prepare food or a meal for somebody in the community who is in need. E.g. Neighbour

Maybe call somebody you know that is unable to leave the house at the moment and would like to have somebody to talk to. Tell them about your day. Ask them how they are and if they need anything.

Could you help a younger sibling with their home learning tasks?

Now think of your own ideas and discuss them with an adult in the house or maybe write them down in your home learning book.
